Education

- **Auchi Polytechnic**   2015 - 2017
  Computer Science/OND
  Upper Credit

- **Ambrose Alli University**   2019-2023
  Computer Science
  2nd Class Upper Credit

- **Auchi Plytechnic Secondary School**   2008 - 2014
  Secondary Education

- **Etsako Primary School**   2002 - 2008
  Primary Education

Objective

I'm a Results-driven and highly skilled developer with a strong background in Angular, JQuery, Vanilla JavaScript, Java Spring boot, And PHP Laravel; Committed to delivering robust and user-friendly web applications and solutions. Adept at problem-solving, collaborating with cross-functional teams, and staying up-to-date with the latest industry trends. Seeking to leverage my expertise to contribute to dynamic projects and help drive innovation in web development.

Skills

- Programming Languages: Java, Python, JavaScript, C++, C#,C
- Web Development: HTML, CSS, PHP, Node.js
- Database Management: Mysql, Postgresql,Nosql
- Technical Skills: Test Driven Development (TDD), Docker Container System
- Version Control:Git, GitHub
- Software Development Tools: Visual Studio Code, NetBeans IDE, Intelligence IDE
- Frameworks and Libraries:Angular, Java Spring Boot, Hibernate, Express.js, jQuery, Bootstrap, Laravel, ionic,
- API Development: REST API
- Problem-Solving: Strong analytical and troubleshooting skills
- Agile Methodology: Scrum

Experience

- **Omateq Digitals**   2016 - 2020
  Full Stack Developer
  - Developed and maintained Software applications using technologies such as Angular, Java, PHP, Mysql, Javascript and CSS
  - Training young IT enthusiasts from basics to advance programming level

Projects

- **E-commerce Application**
  In this project, I Developed a robust e-commerce application using PHP Laravel, showcasing strong backend development skills. Implemented features such as user authentication, product catalog, cart functionality, and secure payment gateways. Utilized Laravel's MVC architecture to ensure code

organization and maintainability. Integrated responsive design principles for optimal user experience across devices. Employed database management for efficient data storage and retrieval. Demonstrated proficiency in Laravel's Eloquent ORM for seamless interaction with the database.

- **STUDENT MANAGEMENT SYSTEM**
  I Designed and implemented a comprehensive Student Management System using Spring Boot, highlighting expertise in Java-based web application development. Integrated essential features including student registration, Student login, ,course registration e.t.c
- **TODO App**
  In this project, I was able to develop an ionic Application that uses Angular for its frontend,

  The Httpclient Module was used to fetch data from the php powered backend
